

JGX-5F

AC SOLID STATE RELAY (PCB MOUNTING)

Type meaning

JGX - 5:[5A] - F:[DC-AC (DC input-AC output)]

Features

- Rated current: 5Amps
- Rated voltage: 220V/380VAC
- Control voltage: 3-32VDC
- Control current: $\leq 10\text{mA}$
- DIP 4-pin package
- "Ultra low" input current
- Low output off-state leakage current
- Low output on-state voltage drop
- Standard output RC snubber circuit
- Metal housing with significant heat dissipation
- British standard PCB mounting dimensions

Application

- Normally used in air conditioners, balers and other household appliances.
